

FAQ's for clinical rotations for NU 647P and NU 610P

1. How many clinical hours do I need?
 - a. Each clinical course has a minimum of 135 hours. During these hours, you will be working with your preceptor, learning the role of the nurse educator or nurse administrator and implementing a project.
2. What types of preceptors should I look for?
 - a. You need to have 135 hours with a master's prepared nurse who is working as a nurse educator for NU 647P or a nurse administrator for NU 610P.
3. What type of sites should I look for?
 - a. Check the Nursing student handbook as this has clinical site examples for each clinical course.
4. Where do I send my preceptor's information if he/she agrees?
 - a. All information should be uploaded into the Sharepoint site by the due date.
5. Will my preceptor be automatically approved?
 - a. No. We review each preceptor and clinical site to make sure that the site and preceptor will provide you with the best experience. So not all preceptors are approved if the course objectives cannot be fully met at that clinical site.
